Cap-X™ – One step closer to a subsea ‘plug and play’ solution

GCE Subsea innovation day: Integrated monitoring 19.4.2017
Bjørgulf Haukelidsæter Eidesen, Statoil ASA
Motivation

- NCS production on decline
- Many small discoveries
- Barents Sea largest yet to find
Objectives

- Open solution
- Freedom to spud
- Innovation platform
Products
Enabling plug and play

Statoil Cap-X™
New solution enabling subsea standardisation
Footprint reduced to 1/4 of regular satellites

One universal structure. Supplier independant.
Choose your equipment

8 x 8 m
Innovation Platform
Cap-X™ and new technology
Digitalisation
Summary
Cap-X™ – One step closer to a subsea ‘plug and play’ solution
